

Environmental Policy

Planetbuilders Ltd has agreed to implement the following environmental policy :-

- We will minimise the use of natural resources and lessen the impact on the environment.
- We plan to meet or exceed all applicable regulations to the environment at all locations. Wherever possible we will purchase non-polluting and energy efficient technologies.
- We will set our own standards and targets if there are no relevant Government regulations.
- We will also establish an action plan with a regular review of progress.
- We will measure progress against set targets for resource efficiency and pollution reduction.
- We will also assist suppliers and customers to promote greener products and services.
- We will report fully the environmental performance of the organisation to relevant parties in a clear and concise annual report.
- Planetbuilders Ltd will control and manage its activities to ensure risks to the health, safety and welfare of its employees, customers and the general public are identified and action taken to minimise or eliminate their effects.
- Adverse effects of operational activities on the environment will be minimised as far as practicable.

The objectives of the policy are :-

- To comply with its legal obligations under the current Health, Safety and Welfare Act and the Environmental Protection Act, together with all other applicable statutory provisions and relevant codes of practice.
- To promote health, safety and environmental awareness throughout the organisation.
- To maintain a safe and healthy working environment for its employees, with adequate facilities appropriate to the nature of the business activities.
- To minimise the social impact of the company activities and avoid damage to the environment through regular reviews of the business from environmental and management systems audits.
- To undertake environmental impact studies as part of any company relocation or enlargement of existing facilities.
